**International Colloquium Tribology – Industrial and Automotive Lubrication
28–30 January 2020 in Stuttgart/Ostfildern, Germany**

Dear Sir or Madam,

In January 2020 the **International Colloquium Tribology** takes place for the 22nd time at Technische Akademie Esslingen near Stuttgart, Germany.

The conference provides an international exchange forum for the industry and the academia. Leading university researchers present their latest findings, and representatives of the industry inspire scientists to develop new solutions. Discussions and cooperation enable attendees to meet current tribological challenges.

One of the main topics of the 2020 conference is the forthcoming e-mobility technology, its various aspects and its consequences for the lubrication and tribology community. Additionally, the programme includes highly qualified presentations dealing with applications of machine learning as well as artificial intelligence in lubrication, condition monitoring, material development and sustainable lubricants.

Please find attached the current programme. For more information about the colloquium please visit our website: www.tae.de/go/tribology

We look forward to welcoming you in January 2020.

Kind regards

Technische Akademie Esslingen e.V.
