**Call for Papers  
International Colloquium Tribology – Industrial and Automotive Lubrication  
28 – 30 January 2020**

Dear, sehr geehrte Mrs. und Mr.,

In January 2020 the **22<sup>nd</sup> International Colloquium Tribology** will take place at the Technische Akademie Esslingen.

The conference provides an international exchange forum for the industry and the academia. Leading university researchers present their latest findings, and representatives of the industry inspire scientists to develop new solutions. Discussions and cooperations enable attendees to meet current tribological challenges.

One of the main topics is the forthcoming e-mobility technology, its various aspects and its consequences for the lubrication and tribology community. The highly qualified papers will also address the applications of machine learning as well as artificial intelligence in lubrication, condition monitoring and material development.

Please find attached our Call for Papers with detailed information about the colloquium.

Abstracts can be submitted via our website [www.tae.de/go/tribology](http://www.tae.de/go/tribology).  
The closing date for the submission is **31 May 2019**.

We would be pleased to welcome you in January 2020.

Kind regards

**Technische Akademie Esslingen e.V.**
